NEOBALLS

Neoballs are high quality magnet balls that are available in a plethora of attractive colors and metal coatings.

Collectible and mixable for expanding palettes and possibilities. Neoballs are designed to appeal to a wide audience at a great price. Endless fun to squeeze, mold, or shape into intricate designs. 5mm in diameter, these n35 grade neodymium magnet spheres are an amazing tool for idle hands and inventive minds alike. Due to our constant struggle for perfection, colors may vary from batch to batch.

OPENING ORDERS & DISPLAYS

FAVORITES DISPLAY BUNDLE

Order one metal display (NEOPOSDISP) filled with one case of the Tin Favorites (FAVE216CASE), and receive a free Nickel Tin (NI216) offset. This is the minimum opening order.

METAL DISPLAY ONLY

Powder coated metal display, holds 24 Tins or 6 Tesseracts.

Width: 135 mm
Height: 265 mm
Depth: 275 mm
SKU: NEOPOSDISP

DOUBLE WIDE VIDEO DISPLAY BUNDLE

The recommended bundle. The video demonstrates the product, and will sell magnets 3 times faster. Get a free offset of 3 Nickel Tins (NI216) when you order a double wide video display (NEOPOSVDISP) filled with a case of Tin Favorites (FAVE216CASE), 3 Multimet Tesseracts (3x NIMULTI216), and 3 Rainbow Tesseracts (3x PRAIN216).

DOUBLE WIDE DISPLAY ONLY

Powder coated metal with our most popular videos on auto-play. Double the width of the small display. Holds up to 48 Tins or 12 Tesseracts. Powered by 9ft cord.

Width: 305 mm
Height: 360 mm
Depth: 275 mm
SKU: NEOVIDISP

216 TIN SETS

Tin sets come 12 units per case in single color, or in 1 of the assorted 24 unit cases listed on next page.

Each set comes with:

- 216 Neoballs Magnets
- Sliding Metal Case
- Mini Guide Card
- Card Tool

61 mm x 86.75 mm x 17.6 mm | 4.9 oz

864 TESSERACT CASSETTES

Mix & match cases include 6 units in the colors of your choice (can mix as long as the quantity is divisible by 6).

Each set comes with:

- 864 Neoballs Magnets
- Child Resistant Case
- Quick Build Guide
- Card Tool

120 mm x 120 mm x 32.75 mm | 22 oz

CASE OF 24
SKU: POLY216CASE

Includes 3 each of Yellow, Orange, Red, Magenta, Purple, Blue, Cyan & Green.

TIN ELECTRO CASE

Magnetic, metallic, euphoric.

CASE OF 24
SKU: ELEC216CASE

Includes 8 Nickel and 4 each of Gunmetal, Silver, Gold & Rose Gold.

TIN SETS SINGLE COLOR CASES

Includes 12 units in single color of your choice.

TESSERACT MIX & MATCH

6 per case. Coating prices vary.

Tin Gift Sets are the perfect way to start collecting and sculpting with magnet spheres. Colored magnets work great on their own, but even better when combined with a more consistent coating such as nickel. Colors won't fade with soft abrasion and, if used gently, the coating can last for years.

Zen Magnets

Zen Magnets are ultra premium magnet spheres. Highest quality on the market since 2009. **You'll never put them down for good.**

The experience starts with the feeling of cool, mirror polished spheres in your hand. But possibilities for constructive creation go so much deeper. Zen Magnets are addictive to play with, and go well with deep breaths. Our tireless quality control ensures that every set is $5.00 \pm 0.01\text{mm}$ diameter, resulting in flatter sheets, stronger frames, and consistent operability. The mirror-polished nickel coating is not only beautiful, but much more durable in use. Precision unmatched.

THE DIFFERENCE BETWEEN ZEN MAGNETS & NEOBALLS

COATING

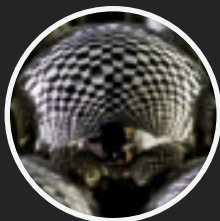

Zen Magnets

Functionally, a smoother coating will last longer than a gritty surface with uneven microscopic ridges.

Zen Magnets have the finest possible NiCuNi coatings that exist on the market. Each mirror polished sphere reflects the entire surrounding environment. Not only do they last the longest, they are the most satisfyingly smooth to touch.

Electroplated Neoballs are Very Good quality magnets. Created much better than commodity quality magnets, but with great value in mind.

Electroplated Neoballs

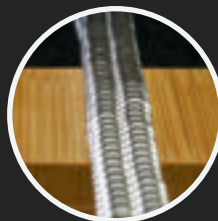

TOLERANCE

Zen Magnets

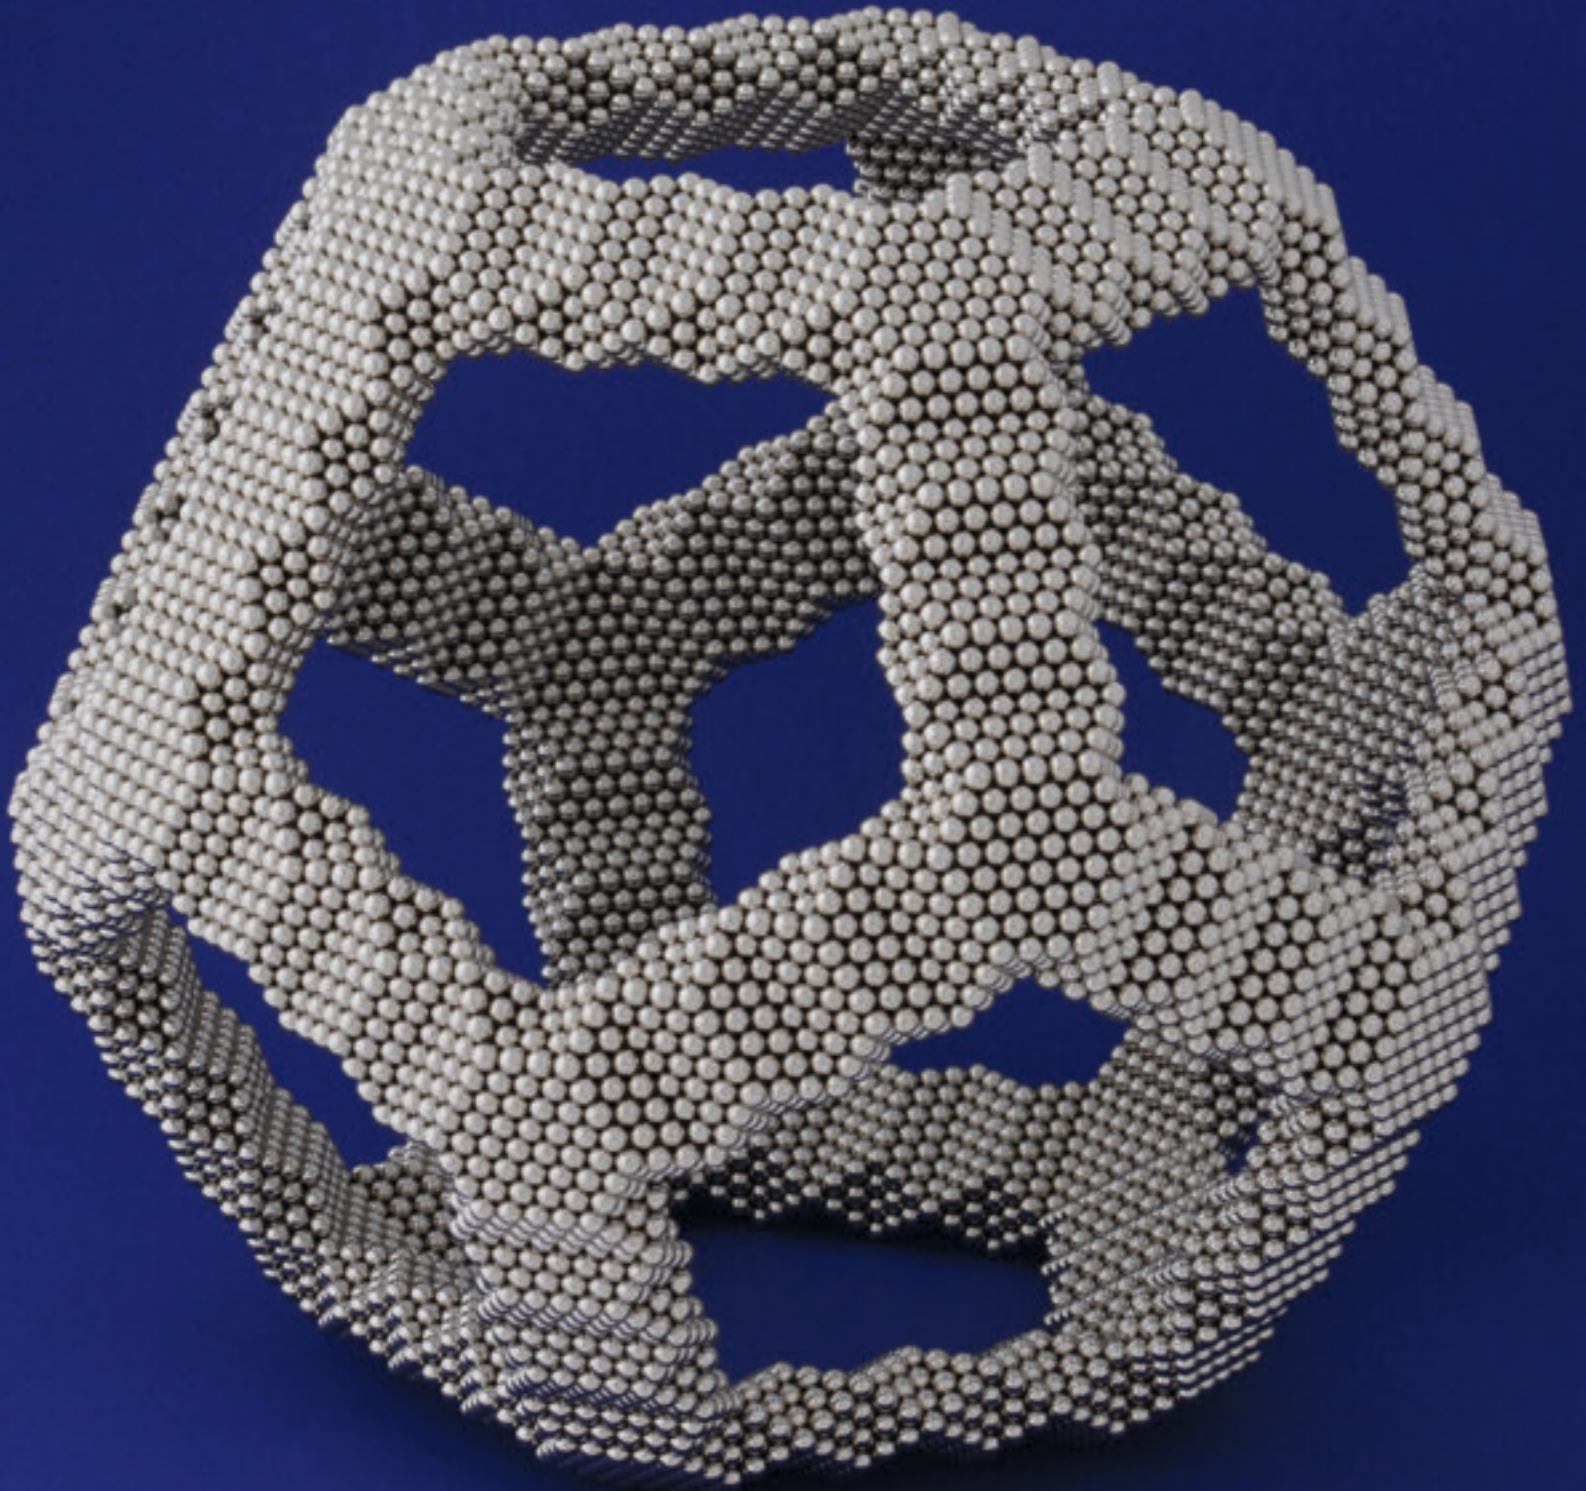

Geometric tolerance affects consistency and repeatability of use. Consistently sized magnets will lie flatter in sheets and form stronger frames. The rigid stick test is an easy way to visually compare tolerance.

The precision of Zen Magnets is simply unmatched. They are the highest tolerance magnet spheres on the market since 2009. This is the reason the most serious builders only use Zen Magnets.

Electroplated Neoballs

Electroplated Neoballs are pretty good for building nearly all of the same shapes. For most consumers who don't build lattices, or large structures, Neoballs are great.

THE MORE YOU TOUCH, THE MORE YOU DISCOVER

When there are less parts to work with, there's a better chance everything will fall into place. The Focus set consists of 72 perfectly precise rare earth magnets, a personal portion of Zen Magnets that will never be overwhelming. Also included is a 50+ page guide, and embroidered velvet carry bag.

Measuring 36cm long in a chain, a Focus set is more than enough to begin experimentation with. Priced to lure the impulsive purchase, yet substantial enough in the hand to spark an addiction for magnetic discovery. Presented in gift-able packaging, the endless possibilities start with the Zen Magnets Focus Set. **Oftentimes it's good to start small.**

A MEANINGFUL GIFT LEAVES A LASTING IMPRESSION.

The Triumph Set is our single best-selling product. It's the finest experience that exists with one set of 216 magnet spheres. First and foremost, the 3rd generation Zen Magnets Gift Set provides 216 magnet spheres, with the unmatched tight tolerances and finest mirror polished coating of Zen Magnets. Even if the only intention is to

squeeze frustration through your fingers, you'll find 216 Zen Magnets to be a worthy companion, with the ideal harmony of resistance and weight. The Triumph Set is also a celebration of success in defending magnets against a nationwide ban in the US when all others fell or fled. It's the perfect gift to complement an intelligent mind.

ARE 216 MAGNETS NOT EQUAL TO YOUR AMBITION?

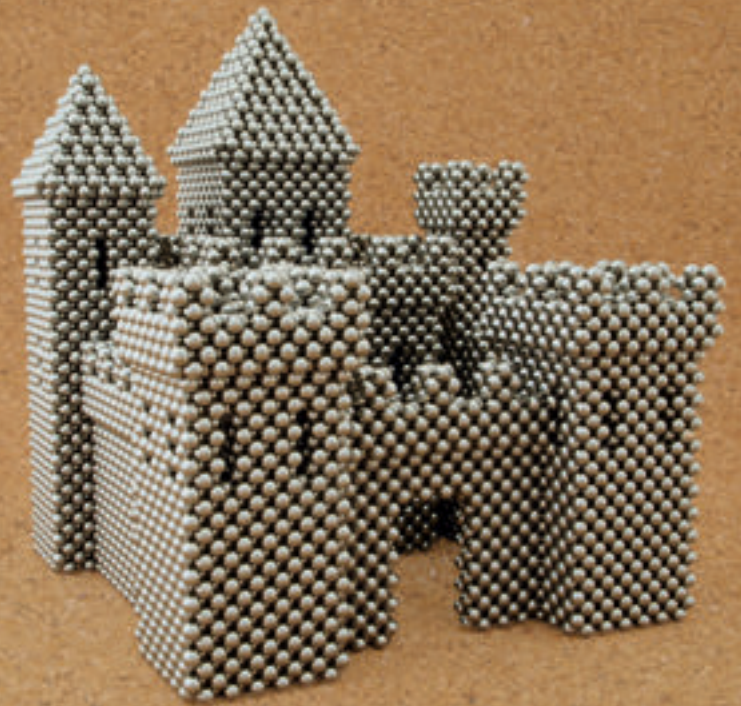

This is not the carry-in-your-pocket and play-with-in-the-car set. The 3rd generation Mandala consists of 1728 Zen Magnets, which is equal to eight sets of 216. Each individually numbered hand-made Tropical Sapelle box is as unique as the exotic wood grain; impression breeds affection at first sight. Case interiors are lined with thick maroon velvet, and

the molded cushion insert is removable to accommodate additional magnets or other valuables. Hidden in the padded lid is a laser engraved building platform. The new Snap Palette serves as a softer building platform that will also snap to your wrist or table edge. Each Mandala set also includes the Mandala guide, our most beautiful and comprehensive yet.

WARNING

THESE MAGNETS ARE NOT TOYS FOR CHILDREN, AND SHOULD BE CONSIDERED POISON IF SWALLOWED. IT'S NOT A CHOKING HAZARD. MULTIPLE INGESTED MAGNETS CAN CONNECT INTERNALLY, WHICH CAN REQUIRE SURGERY FOR REMOVAL. COMMUNICATION OF MAGNET INGESTION HAZARD IS NECESSARY FOR CONSUMER SAFETY.

Zen Magnets and Neoballs are more dangerous than non-magnetic objects if eaten. All Zen Magnets and Neoballs products are labeled to exceed regulatory requirements, and our increased warnings have prevented any recorded ingestions. However, distributors and stores must also sell responsibly.

In 2009-2012, two age groups most frequently ended up in the ER for ingesting high powered magnets:

- * Children under the age of 5 who still explore their environment by mouthing objects.
- * Teenagers ages 10-14 who use magnets to imitate piercings, subsequently swallowing magnets.

Thus high powered magnets should not be sold to or kept around young children. Magnets should be kept away from faces, especially the mouth. Ensure that anybody who uses magnets is capable of understanding and following warnings.

ABOUT

We're a small company based in Denver, Colorado where the sky is always a bit bluer than in the pictures you see.

We exist to celebrate the arousing poetry of design, commemorate the natural rhythm of geometric shapes, and rouse the dreams of inspired imaginations. Because there are few ventures more worthwhile than stretching the inventive mind.

Since 2009, Zen Magnets' top priority is to offer the highest quality magnet spheres on the market. Frequently now, we're also recognized as the one company that beat the 2014 US Magnet Ban when all other firms fled or fell.
